1. On 24 March, Diane La Voy, HSPCI staff, asked that the following intelligence product -- if available -- be provided to Committee staff:

- o Any DDI productions dealing with the cultural, social, economic efforts/improvements (literacy campaign, health, improvements in utilities, nutrition programs) initiated since the Sandinistas took power in Nicaragua;
- o Should we not have any specific product on point, Ms. La Voy asks that we direct her to other sources, either within or without the Community.

2. You should be aware that this stems from the DCI's appearance before HPSCI on Wednesday, 23 March, [REDACTED]

25X1

[REDACTED] A couple of Members posed questions along the same lines as their request.

3. Please let me know if anything is available in the form of a publication or advise as to where Ms. La Voy might direct her inquiry. Thanks for your assistance.
